

Cibola and McKinley Regional Water Plan

Watersheds in the Region 6b

Produced by New Mexico Water Resources Research Institute, November 2003

Base map prepared by the U.S. Geological Survey

Compiled from digital data provided by the New Mexico Resource Geographic Information System Program (RGIS). Original base maps digitized from 1:500,000 mylar sheets and 100,000 paper maps for New Mexico. These data meets National Mapping Accuracy Standards for 1:500,000 and 1:100,000 scale maps. Watershed boundaries based on USGS 1:500,000 and 1:100,000 scale maps, data provided by the RGIS program. Boundary of the Cibola and McKinley Water Planning Region is based on county boundaries and surface drainage divides.

Horizontal accuracy: At the scale of 1:1,000,000 at least 90 percent of the points tested are within 1/30th inch (0.0333 inch), or within 847 ground meters, of their true location.

Projection: Universal Transverse Mercator, Zone 13, Units meters, NAD83.
