

# Supporting Document E-4

## **Public Preferences Among Alternative Actions Results from 5<sup>th</sup> Series of Community Conversations**

Participants at the 5<sup>th</sup> Series of Community Conversations were asked to select their top 5 Most Liked (M) and bottom 5 Least Liked (L) alternatives from the 44 possible options. Region residents were also mailed cards on which they could submit their votes if they could not attend a Conversation. The table here shows the ranked results for the card votes and the “dot” votes – those votes received at the Community Conversations.

	Alternative Action	Alt. Id No.	Dot Preferences				Card Preferences			
			Totals		Ranking		Totals		Ranking
